REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art discloses a motor driven system having a stator with annular magnetic substances, main poles extending radially outward from the magnetic substances, windings wound on the main poles, inductors having a plurality of magnetic teeth and an outer rotor magnet rotor having magnetic poles arranged alternately on an inner circumference of the rotor. However, the prior art fails to disclose, in combination with the invention, the specific relationship of $P=m(3n \text{ plus/minus } 1)$ in which m is the number of main poles of the stator for each phase and an integer not smaller than 1 or $P=k(6n \text{ plus/minus } 1)$ in which $2k$ is the number of main poles of the stator for each phase and each of k and n is an integer not smaller than 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
